

Belarus new member of FEMTEC!

Belarus new member of FEMTEC! The thermal system of Belarus is one of the most complete and updated in Europe. (<https://www.belarus.by/en/travel/sanatoria-in-belarus>)

There are over 50 thermal centers of various sizes and curative profiles. Among these, the Belprofsoyuzkurort system with over 15 centers is of considerable importance and quality.

It belongs to the Union of Trade Unions of Belarus, and plays an important role in prevention, treatment and rehabilitation in the country's health system. Among these structures, the Krinitsa (<http://www.toptur.by/en/accommodation/krinitsa-eng/>) Medical Thermal Center near Minsk deserves particular attention, where complete residential treatments of integrated thermal medicine are carried out.

Equipped with a Scientific Medical Committee with Experts from the Academy of Sciences, the patient has the opportunity to use classic and advanced diagnostics and therapeutics.

Among the latter, the digital procedures for assessing the neuropsychic resilience of patients are of particular interest.

Therefore, on the occasion of the visit of the President of Femtec, Prof. Umberto Solimene, a framework agreement for medical scientific collaboration was signed with Belprofsoyuzkurort, represented by the Director General Nikolay Matyukevich. The signing was attended by Members of the Belorussian Union (Viktor Korotky and Andrey Kaminsky) and the Academy of Sciences Sergey Gubkin, Alexander Sivakou, President of the Belorussian Academy of Acupuncture and Traditional medicine.
